Master Student in Data Science and AI

about

Master's student in Data Science and AI with a solid background in Management Engineering. Strongly research-oriented, with a specific interest in Explainable AI, **Automated Fact-Checking** and LLMs.

I combine analytical and problem-solving abilities, honed through diverse work experiences ranging from data annotation to teaching.

technical skills

· **Programming**

Python (Advanced), Java, SQL, $\LaTeX$, Bash

· **Data Analysis & ML**

pandas, NumPy, matplotlib, seaborn, sklearn, SciPy

· **Deep Learning & AI**

PyTorch, Keras, HuggingFace, LangChain, LangGraph, LlamaIndex

· **Tools & Software**

Git/GitHub, Docker, Jupyter, VS Code, Microsoft Office, NeoVim, Linux OS

· **Elaborazione Audio Speech-to-Text™**

ASR, torchaudio, OpenAI Whisper, computing clusters proficiency

· **Computer Vision & Document AI**

Deep Vision, World Models, OCR, I-OCR, VLM

· **Knowledge Management & Information Retrieval**

RAG, GraphRAG, Knowledge Graphs,

experience

Outlier AI

Jan 2025 – Present
Florence (Remote)

Riverloop

Nov 2024 – Dec 2024
Messina

Dometria

Present
Florence

Freelance Data Annotator

Ensuring quality and accuracy of annotations for AI models. Applying rigorous data annotation methodologies and best practices with high attention to detail.

Python Teacher

Taught Python for Data Analysis, Machine Learning, and Deep Learning. Developed and maintained a dedicated GitHub repository to structure the course curriculum, providing students with code examples, notebooks, and practical exercises.

AI & Data Science Intern

Engineered a specialized GraphRAG matching system leveraging "ColdRAG" and "DialKG" frameworks to optimize asset-investor matching. Modernized the internal conversational bot architecture by migrating to an event-driven, LlamaIndex-based workflow, utilizing Pydantic for data validation and FAISS for efficient similarity search. Experimentation with fine-tuning of OpenAI Whisper to specific gergon

ColdRAG, DialKG, Multimodal RAG

education

Settembre 2024 – Luglio 2026

Univ. degli Studi di Firenze

Master's Degree in Data Science & AI

2021 – 2024

Univ. degli Studi di Firenze

Bachelor's in Management Engineering (100/110)

2016 – 2021

Liceo Classico Galileo

High School Diploma (95/100)

Università degli Studi di Firenze

Present

Florence

Misericordia

Present

Prato

Languages

Academic Tutor

Provided academic support and mentoring for students in the [Insert Specific Course/Program, e.g., Management Engineering] department. Facilitated practical exercises, clarified complex technical and quantitative concepts, and assisted students in developing effective problem-solving methodologies for computer programming with Python.

Volunteer

Developed first aid, teamwork, and communication skills while fostering compassion and resilience under pressure. DAE and First Aid certified.

Proficiency

Italian : Native, English : Professional

skills

Python

Deep Learning (PyTorch, Keras)

LLMs (RAG, GraphRAG, Transformer)

Lifelong Learning and Everlasting Curiosity
